2020 VOL. 1

TAURUS® EXPORT PRODUCT CATALOG

Item No: 10022524

Item No: 10021894

From humble beginnings and a commitment to achieving a vision often comes great success. Such was the case with Taurus Armas, S.A. What started as a small pre-WWII machining operation founded as Forjas Taurus Ltda. (Taurus Forge) in the Brazilian state of Rio Grande do Sul has now become one of the largest small arms producers in the world.

Since 1942, when Forjas Taurus created the company's first revolver, the Model 38101SO, the company has steadily capitalized on newly available material and machining technologies as well as invested in the most valued resource of all—the recruitment and development of skilled local labor forces in both South America and in the United States. This forward-thinking, infrastructure-first approach to the design, engineering, manufacturing, and distribution of firearms has resulted in the company's diverse portfolio of premium handguns, ISO 9001 certification, and has made Taurus a valued partner to the local communities in which the company enjoys operational and manufacturing bases.

Now, almost 80 years after manufacturing that first landmark revolver, Taurus stands as one of the major handgun brands in the world, with products serving professional defense forces, law enforcement, personal defense practitioners, competitive shooters, target shooters, and hunters alike. Furthermore, Taurus has earned coveted industry recognition with numerous accolades accepted for "Manufacturer of the Year", "Handgun of the Year", and "Golden Bullseye" awards from key industry associations and respected firearm media entities. In the last several years, especially, Taurus has further cemented its reputation for technology and design innovations with groundbreaking firearms such as the Judge, Taurus Raging Hunter, and the new Taurus G3.

With a continual focus on the future and new ways to bring better products to consumers, Taurus has been investing in Brazil, focusing on robust production processes, logistics and total focus on quality which, aligned to the solidification of its management policy, bring differentials that mirror company's strategic tripod – production stability, reliable products and productivity. Such factors coupled with cost management enable Taurus to translate them to the client into fast delivery, assured quality and competitive price.

In addition, in the end of 2019 Taurus moved its facility in USA from Miami, FL to a new 200,000 square foot state-of-the-art facility in Bainbridge, Georgia. This move has provided the company with much-needed engineering and production expansion and further strengthened Taurus' core manufacturing capabilities to meet ever-refining consumer expectations.

Bootstrap companies that successfully survive their early years tend to be the exceptions even in the best of circumstances. Those whose leaders and valued employees commit to a thoughtful, long view based on quality work and a consumer-first perspective are the ones with longevity counted not in years, but in generations. As Taurus moves toward its ninth decade of manufacturing excellence and innovation, the road ahead looks brighter than ever.

TH SERIES

The Taurus® TH series of hammer-fired pistols. Well-equipped, ultra-dependable and chambered in 9mm Luger or 40 S&W, the TH series is a modern reinvention of the classic hammer-fired SA/DA semi-auto platform. Available in both full-size and compact models, the TH series is built on a polymer frame that boasts finger grooves along the grip, generous stippling panels and interchangeable backstraps (full-size only) for a custom fit.

Jessie Harrison

Competing—and excelling—in five different shooting disciplines, Taurus Team Captain Jessie Harrison has won both world and national championship titles—including the prestigious Bianchi Cup, the Steel Challenge World Speed Shooting Championships and numerous USPSA National Championships. The first female shooter to obtain Grand Master status in the United States Practical Shooting Association, Jessie is recognized as one of the most accomplished competition shooters in the world. And it's safe to say she's only getting better.

THREE BARREL LENGTHS. THREE CALIBERS. ONE RAGING FAMILY.

The Taurus Raging Hunter™ is a next-generation, big-bore revolver that's first in innovation—and built to last. Its revolutionary angular barrel design cuts down on overall weight, while its factory tuned porting and gas expansion chamber reduces muzzle lift for quicker target acquisition. Cushioned insert grips ensure a comfortable, controllable shooting experience.

WARNING concerning ammunition use only high quality original ammunition from the factory. Do not use dirty, damp, corroded, deformed or damaged ammo. Do not lubricate the ammo. Lubricants or other foreign materials may cause potentially hazardous changes to the ammunition. Use only the ammunition of the caliber for which your handgun was designed. The proper caliber is permanently engraved on your handgun.

The use of reloaded (recycled) ammunition of manual loading or any other type other than the standard will void all warranties. Improper loading can be extremely dangerous. Using these ammunitions can cause severe damage to the handgun and serious injury to the shooter or others. Always use ammunition that complies with the standards of industrial performance established by the United States Sporting Arms and Ammunition Manufacturers Institute (SAAMI) or equivalent entity in other countries (C.I.P.).

WARNING FOR "+P"

Only fire SAAMI rated Plus P ("+P") ammunition in Taurus Models designated by Taurus for +P use as below. Firing +P ammunition in other Taurus products may be dangerous and can result in serious bodily injury or death.

- 85 (most models) small frame revolver in 38 Special
- 856 small frame revolver in 38 Special
- 850 small frame revolver in 38 Special
- 851 small frame revolver in 38 Special
- 85 Polymer small frame revolver in 38 Special
- 82 medium frame revolver in 38 Special
- 817 medium frame revolver in 38 Special
- All fi rearms chambered in 38 Super Automatic
- All fi rearms chambered in 45 Automatic (ACP)
- All fi rearms chambered in 9mm Luger

WARNING

Even if your Taurus firearm is rated for Plus-P ("+P") ammunition, such ammunition generates pressures significantly in excess of the pressures associated with standard ammunition. Such pressures may affect the useful life of the fi rearm or exceed the margin of safety built into many firearms. Unless you need +P ammunition, do not use it, particularly for practice.
